

Getting AI to Work Without You

AI Bootcamp • Week 3
EXP SoCal • Wednesday, July 29
Joshua Sun & Timothy Joe

My wife set this up in five minutes.

She's a fashion designer, not a tech person.
It writes her invoices every two weeks.

My eight-year-old built an app by talking to it.

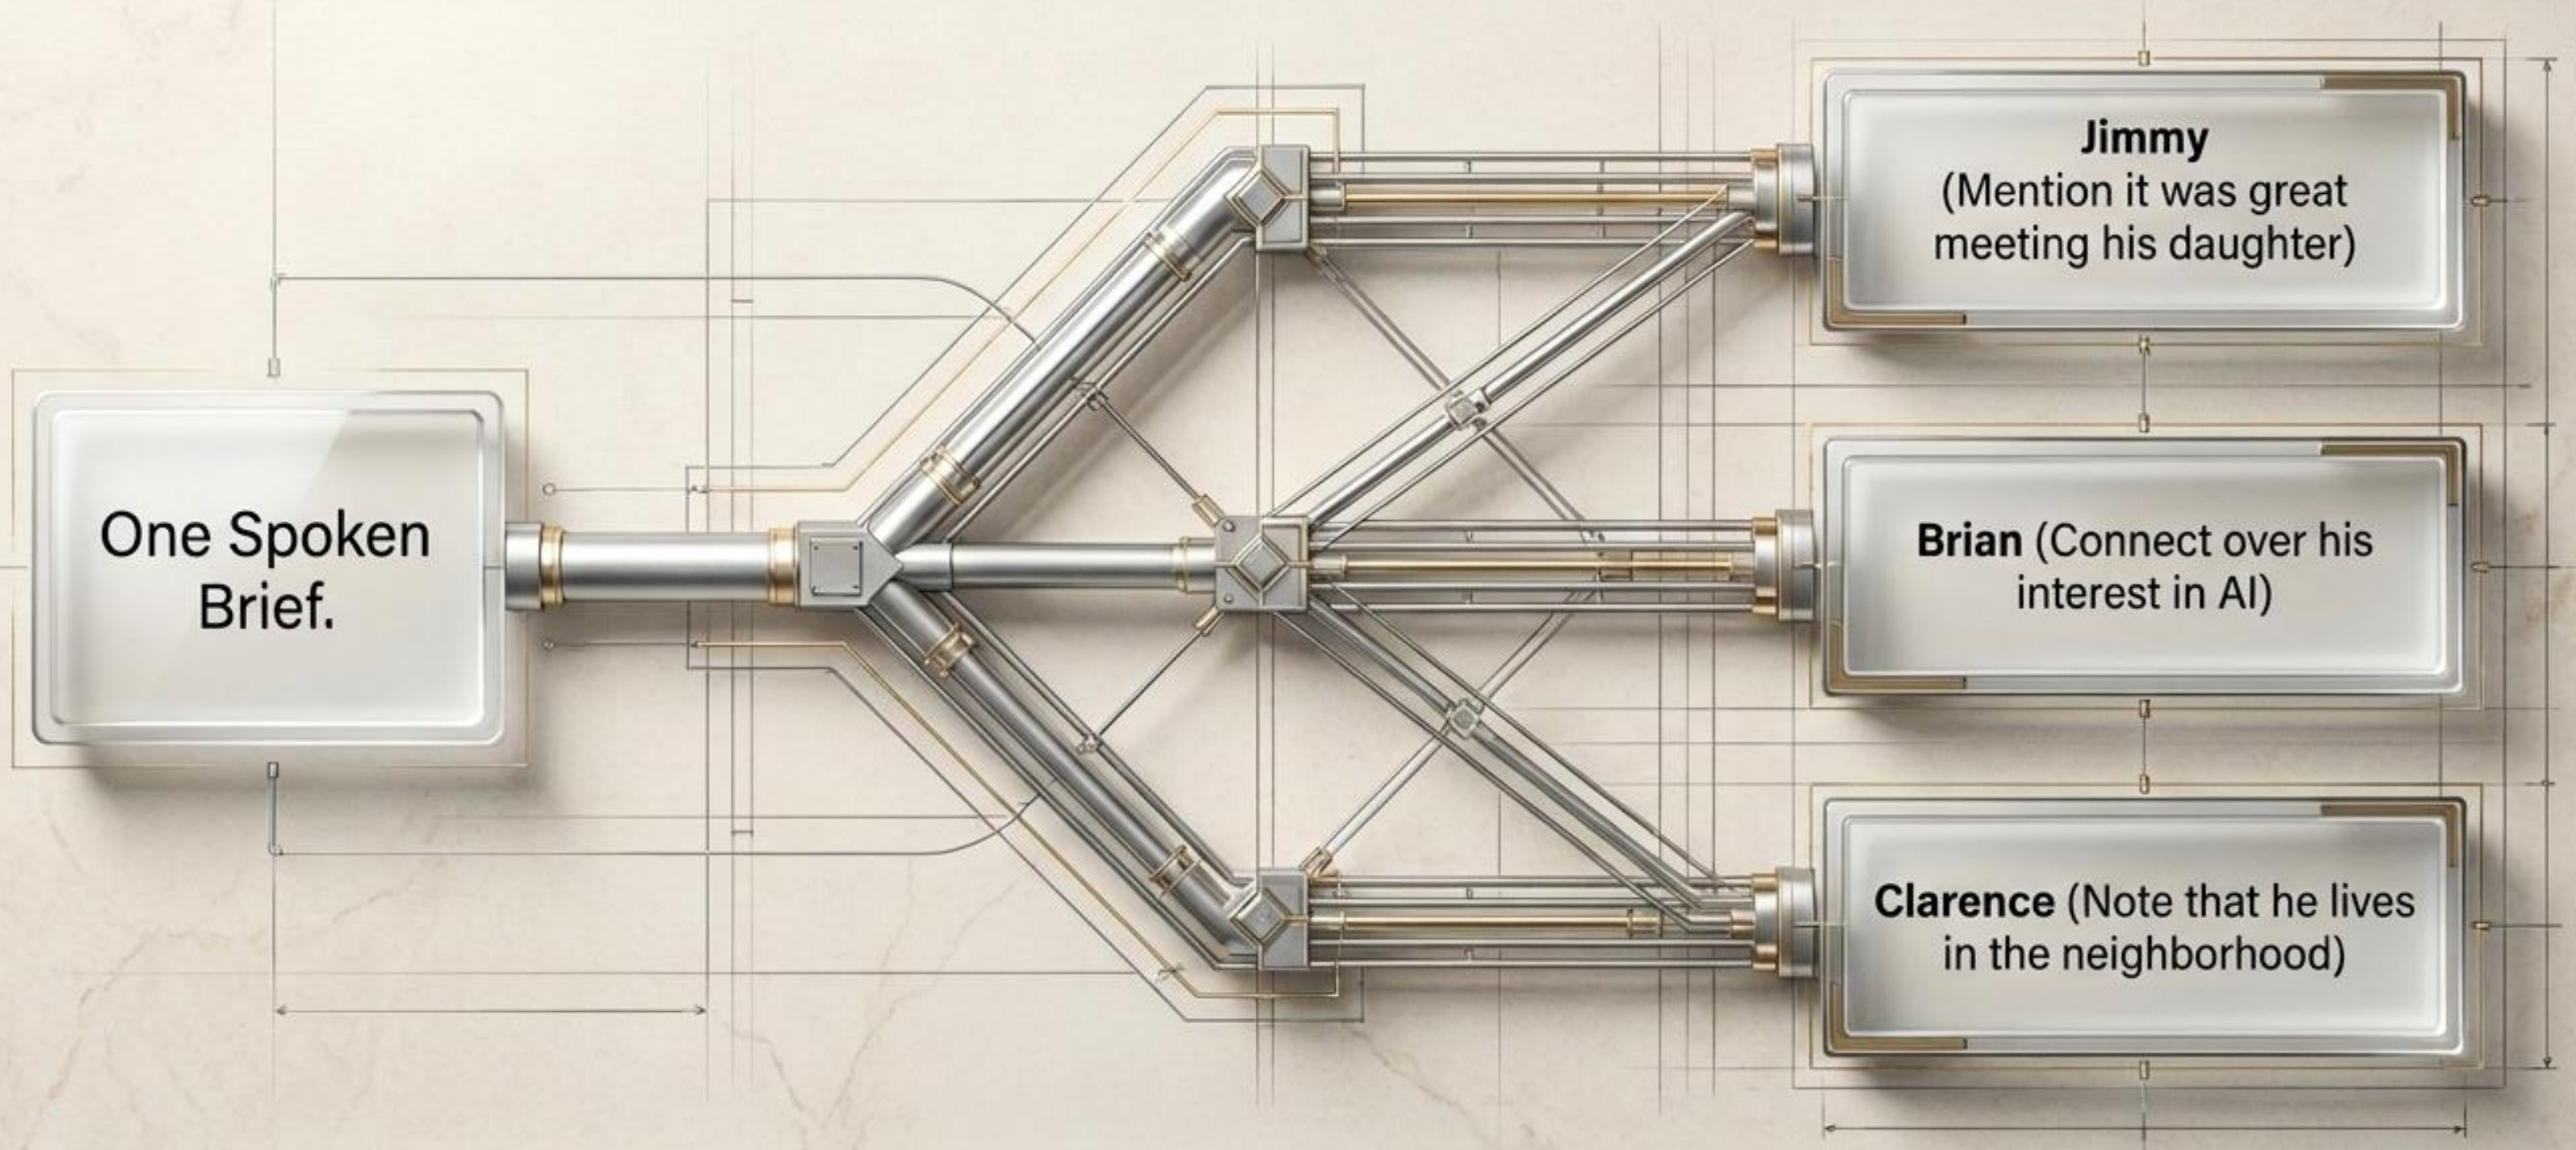

It was live on the internet by dinner.

Exercise Two

Text your people, personally, at scale.

Monday morning after an open house.

Twenty people in four minutes. Every message sounds exactly like you.

Getting logged in.

Go to yourguidehome.co/login

1

Enter your
email
and get a code.

2

Enter the code.

3

Set your
password.

This is what your buyer gets.

- A guide that walks them through every step.
- Market Pulse, so they know what's actually happening.
- A payment calculator they'll actually use.
- Personalized and branded with your picture and info, so they see it's from you.

Two tools you can plug in today.

The Texting Engine

yourguidehome.co/login

The Inspection Analyzer

A 40-page technical report
translated into plain English,
instantly available in 5 languages.

Need your own page set up? Text: 858-216-6091.

The Automation Ladder

You do it with AI.

Prompt → Result.
Where we are today.

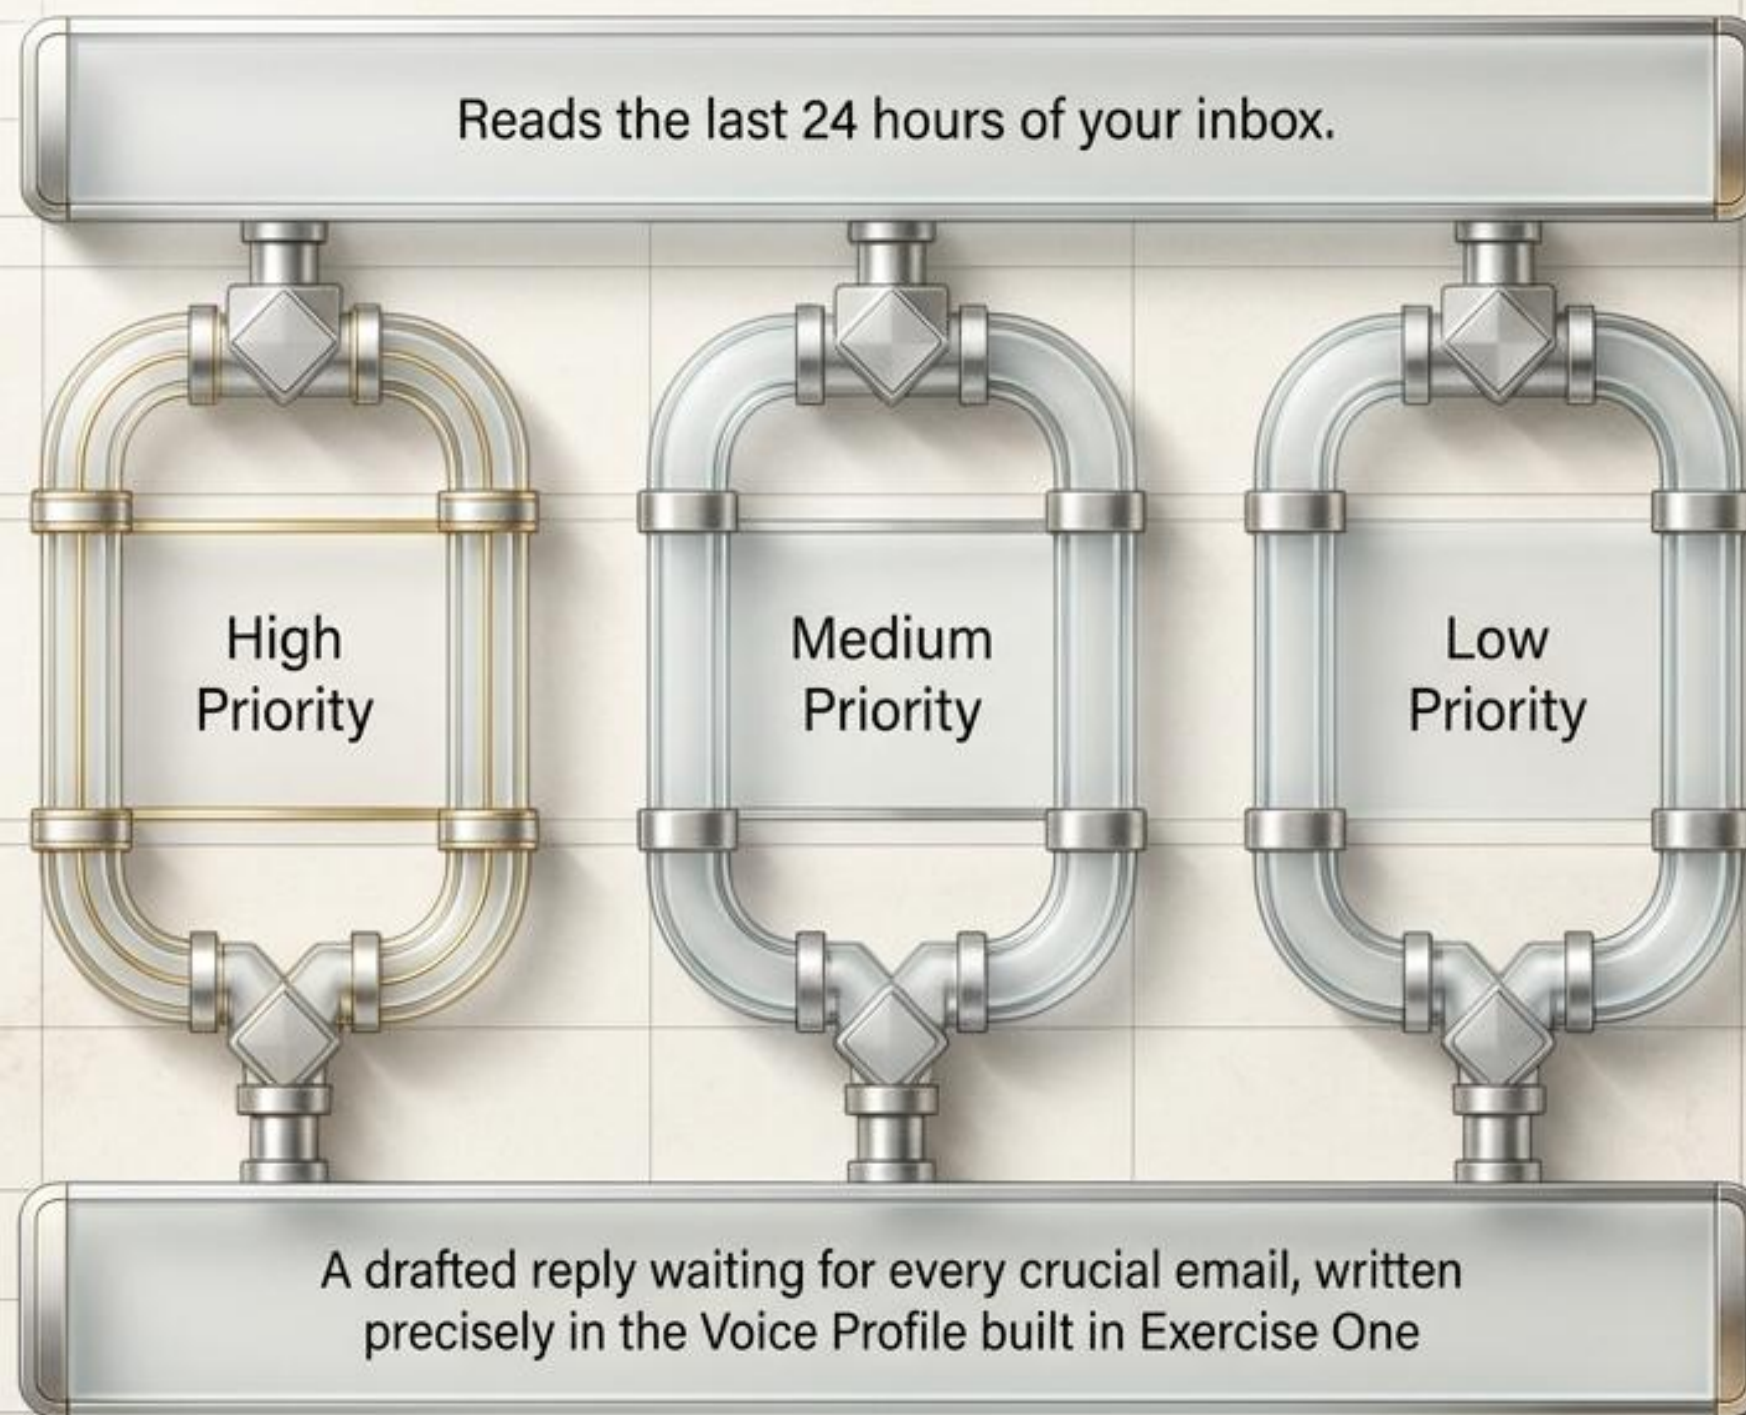

It runs on a schedule.

Cowork automations.
You go look at it.

It comes to you.

Autonomous delivery.
Cappy & Hermes.

Email Triage, fully automated.

Skim it. Hit send. Run it every day at 9:00 AM.

Don't want to connect your email?

Do one of these instead. Same idea, nothing connected.

The Morning Brief

The Research Brief

Setting up your email triage.

1

Connect
your email

2

Paste the
triage prompt

3

Point it at your
voice profile

4

Set it to run
at 9am

The background features faint architectural line drawings of a two-story house. On the left, a side elevation shows a gabled roof, a dormer window, and a two-car garage. Dimensions include a total width of 12.00, a garage width of 6.00, and a height of 13.00. On the right, a front elevation shows a symmetrical facade with a central entrance and two side windows. Dimensions include a total width of 12.00 and a height of 20.00. The main text is overlaid on this background.

20+ use cases, and the list keeps growing.

Everything I showed you, plus the ones we didn't get to.

A perspective view of a long, straight row of identical metal frames, each containing a white card with a different icon (gear, document, magnifying glass, etc.), receding into the distance on a light-colored floor.

joshuasun.co/bootcamp

NotebookLM

The background of the entire image is a light-colored, marbled surface. Overlaid on this are faint, light-gray architectural drawings of a two-story house. These drawings include front and side elevations with various dimensions. For example, the front elevation shows a total width of 12.00 and a height of 10.00. The side elevation shows a width of 5.00 and a height of 10.00. The drawings are positioned around the central whiteboard, with one on the top left, one on the top right, and one on the bottom left.

One thing this week.

Send a Guide Home link to one real person.
